

Peace Unification Cryptocurrency (PUC) Airdrop

2019.11.28.Ver.

The Peaceplus and Peace Unification Cryptographic (PUC) project teams (hereinafter "Company") do not provide any economic guarantee for PUC airdrops provided free of charge. Individual airdrops are valid only for the personal information and electronic wallet address registered for the first time. The Company will not airdrop again on the loss of PUC caused by electronic wallet loss or other incidents.

PUC's target price for listing on the exchange is 100 Won/PUC, and the Company does not guarantee or compensate for any rise or fall in the PUC price.

The PUC airdrop adopts mathematical network theory, and it has nothing to do with pyramid marketing, network marketing or MLM. In order to improve the recognition and evaluation of PUC, free distribution is made to an unspecified number of people.

All the information on Peaceplus and PUC project, whitepapers and SNS communities can be found on www.peaceplus.org (available in English, Chinese and Korean)

1. Participant sends the name, cell phone number, email, ETH and ERC20 e-wallet address to airdrop@peaceplus.org.
